

The people of Spectrum Science Communications provide the best health care communications anywhere. We are a vibrant, strategic, fast-paced, elite, specialized team—effective and results-oriented—helping our clients exceed their business or organization goals.

We are currently seeking talented professionals at all levels to contribute to the extraordinary service we provide to our clients on a daily basis. If you have a passion for health issues and a desire to work in a fast-paced, team environment that is dedicated to achieving superior results, then Spectrum might be the place for you.

Please submit a resume, cover letter and salary requirements to careers@spectrumsience.com

Spectrum Science Communications is an equal opportunity employer that values diversity in our workforce. EOE. We also offer a full range of employee benefits including medical, dental, vision and life insurance, short/long-term disability, 401K(k) with company matching, flexible spending accounts, health reimbursement account, paid vacation, holidays and personal days, as well as ongoing training & development. Teambuilding and fun/celebratory events are planned for staff throughout the entire year as well as opportunities for employees to be rewarded and recognized for their contributions through spot awards and bonuses.

Technology + Design Interns

We are seeking talented candidates experienced in print/graphic/web design, interactive design and web development to participate in our 2008 Spring, Summer and Fall internship programs. Spectrum's Technology & Design team offers superior strategic advertising and produces high-level collateral and Web sites for a diverse group of healthcare clients. Technology & Design interns will gain hands-on experience in producing print and Web projects, learn from a talented, strategic creative team and develop a great portfolio.

Candidates should have a background in graphic design and production and/or web development and demonstrate strong creative thinking. Proficiency in Adobe Creative Suite 2, Dreamweaver and Flash on either Mac or PC is required. Internet research and HTML skills are also advantageous.

Public Relations & Public Affairs Interns

Spectrum Science Communications offers students the opportunity to gain first-hand experience in the area of communications. We specifically provide services in public relations, strategic communications, public affairs, and interactive communication. Spectrum is dedicated solely to health care and intern candidates should demonstrate an interest in our field of expertise. We strongly encourage people who are self-motivated, with excellent oral and written communication skills and an inquisitive nature, to apply.

As a PR/PA intern you will be given the opportunity to learn fundamentals of the communications arena, while focusing on cutting-edge science and health breakthroughs. You will gain experience in media relations research, the development of press materials, marketing research skills, media monitoring, and internal strategy sessions. You may work

with staff of all levels on projects to support our clients in exceeding their business or organization goals.

We accept applicants who are enrolled in communications, journalism, English or other related majors, who can work in a dynamic, fast-paced, diverse environment. Positions are offered year-round to students enrolled as sophomores, juniors or seniors. We also encourage graduate students interested in acquiring experience in their chosen field. During the summer we offer full-time paid internships and the deadline for summer applicants is April 1, 2008.
